

# Recommendation Letter

**Dear Sir,**

I write this letter in support of Rania Atia 's application for completing her studies in your university. I have studied for Raina in under graduated courses especially in 2<sup>nd</sup> and 3<sup>rd</sup> levels. She has always impressed me with his ability to be researching difficult concepts and getting higher marks. Rania's sensitivity to the nuances within solving, and his passion for challenge, set her apart both as a student and as a young researcher. She was conscientious about completing tasks so as not to leave work for those coming on shift after her.

Rania Atia is an intelligent and active person, so I recommend her for the completing her studies in Missouri S&T: Missouri University of Science and Technology. I am certain that Rania is going to continue to do great and creative things in her future. Please feel free to contact me if you have any questions at: [ahmed.r.master@gmail.com](mailto:ahmed.r.master@gmail.com)

Sincerely,

Ahmed R. Ali

Mathematics & Computer Science Department,  
Faculty of Science, Menoufia University, Egypt.
