

Academic Background

I am RANIA ATIA MOHAMMED from Egypt ;I got my bachelor degree of Science Mathematics department with grade of 90.18% , and now I am teaching assistance at my faculty. I would like to apply for your scholarship to study Master degree of Science Mathematics department. I have excelled in academics at every stage of my education. In the twelve years of my schooling, I have always been considered good student among the other class fellows. During my high school , I learned many skills like: High demand for career advancement, enjoy contributing to a team effort, Care and hard work, and can be relied upon, a fast learner who enjoys optimism and cooperation, take the initiative to ensure that all tasks are accomplished, helping in create an enjoyable work environment, also I am interested in participation in social activities.

My Personality

By fact, I am a socially active person with friendly nature, a good communicator who is blessed with many friends. I keep a keen view to the reality of life. Thus approach people with positive mind and attitude and always prove to be helpful with honest efforts and true dedication. Besides that I always feel very joyous and fortunate to meet and greet people belonging to different backgrounds and cultures. As such, meetings are always important because they prove to be beneficial in future. Also, it makes things easy to cope with; whether one works or studies in his own country or a country abroad. If I really want to learn something new I can! I have valuable networking skills; I may be better at networking. I have had more time to learn from my mistakes; I have had longer to realize where I went wrong in the past. This is itself, makes me more determined to succeed with my studies.

Study Plan in your country

I would like to apply for the science degree department of mathematics in your country. As my current and previous knowledge created a thirst of knowledge and

an urge to get in to the detail study of my chosen course. I would like to gain deeper theoretical and practical knowledge about Mathematics .

Reasons to study in the USA

Your country dream language & culture institute is a bridge for the USA-Egypt friendship and economic exchange, especially a cradle platform for Egyptian friends to get education and entrepreneurial opportunities. Reading the books, watching the news, analyzing and observing the people of the USA; I am really impressed by the way these individuals have proved themselves to be dedicated to their work and with true efforts they have set the USA as a successful example for other third world or developed countries. The fast-growing economy, technological advancement and the global ranking education institutes of the USA with high reputation makes a great aspiration to the students and professionals for the better career perspectives. Thus such kind of positivity has boosted my confidence further and I am highly satisfied with the decision I have taken. Moreover, the USA's diverse cultural norms and values, the famous gentle hospitality of its people and Egypt-the USA all weather friendly relations since past to promote bilateral trade , acceptance and peace to both sides in great clarity make me feel the USA as my second homeland. Also my family fully supports my choice for the USA being my preference for studies. All these reasons put together make the USA an ideal place for me to do my Mathematics degree. Concluding it, with high hopes I believe this application will receive your favorable consideration and I will be happy to provide any additional information you may need. I look forward to receiving your reply.

Sincerely,

RANIA ATIA MOHAMMED
